An effective technique for figuring out a value is to send out a survey to your present customers. If these clients have already bought an e-book from you, ask for their opinion by way of price. Do that by creating a gross sales page for the brand new book, but do not include a value on that page. Instead, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out costs by creating a variety of duplicate sales pages with different costs on every page. Make sure that your sales copy is precisely the same on every page, and includes your promoting-handle sentence. Then work out for every web page the conversion ratio between guests to your website and gross sales of your book. This may let you know what your optimum value is.
